Lead Warning Statement

Every Purchaser of any interest in residential real property on which a residential dwelling was built before 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The Seller of any interest in residential property is required to provide the Purchaser with any information on lead-based paint hazards from risk assessments or inspections in the Seller's possession and notify the Purchaser of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior purchase.

Seller Acknowledgement and Contingency Period

Seller has knowledge regarding lead-based paint and/or lead-based paint hazards. Records, reports and other information are available for downloading and review from the property listing website, and copies have been provided to the Purchaser. Purchaser has a contingency period to withdraw from the contract that expires fifteen (15) calendar days from the date of the Purchaser's signature below. Because the Purchaser had access to lead records, reports and other available information before submission of the bid, the Purchaser may withdraw from the purchase contract by providing written notice of withdrawal on or before the contingency expiration date (as evidenced by the postmark on the Purchaser's notice of withdrawal), but is not entitled to a refund of earnest money, unless the Purchaser obtained an independent lead-based paint inspection performed by a Certified Lead-Based Paint Inspector or Risk Assessor and the Purchaser provides the Seller with a copy of the inspection or risk assessment report.
