Lead Warning Statement

Every Purchaser of any interest in residential real property on which a residential dwelling was built before 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The Seller of any interest in residential property is required to provide the Purchaser with any information on lead-based paint hazards from risk assessments or inspections in the Seller's possession and notify the Purchaser of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended before purchase.

Inspection Contingency

Seller has no records or reports pertaining to lead-based paint and/or lead-based paint hazards. The Purchaser has a contingency period that expires fifteen (15) calendar days from the date of the Purchaser's signature below, to conduct at the Purchaser's expense, an independent lead-based paint inspection, visual assessment for deteriorated paint, or risk assessment. The Purchaser may withdraw from the contract by providing written notice of withdrawal on or before the contingency expiration date (as evidenced by the postmark on the Purchaser's notice of withdrawal). The Purchaser will be entitled to a refund of earnest money only if the Purchaser obtains an independent lead-based paint inspection performed by a Certified Lead-Based Paint Inspector or Risk Assessor, and the Purchaser provides the Seller with a copy of the inspection report.
